Experience

Full Stack Developer (Dec 2024 - March 2026)

@ [Uncle Sams Tech LLC](#)

Developed and deployed full-stack web and mobile apps, delivering real-world solutions on products like [NextPostAI](#), [RemoteWorkFromAnywhere](#), [Juju](#), [Chess999.com](#), [PNW Gardening](#), including features like recommendation engines, with scalable, performant, and user-friendly designs.

Developer / Technical Team (Feb 2024 - Now)

@ [Association of Computer Engineering Students](#)

Organized workshops and national-level flagship events like hackathons, CTFs, and quizzes, while also building custom websites and internal tools such as the Tech Fest site, Learning Challenge platform, and Google Maestro (real-time quiz system), and optimizing the organization's portfolio website to increase engagement..

Web Developer Intern (Feb 2024 - Sep 2024)

@ [MITRA Consultancy \(Formerly Neonshark\)](#)

Led teams across multiple projects, delivering web and app solutions on schedule while collaborating closely with clients, building strong relationships, and optimizing workflows to improve efficiency and project outcomes.

Projects

JuJu - Your story, your stage

[View Live](#)

A creative platform for users to share short-form videos and music, focused on originality and community engagement

Vivid Tab: A new tab, a new vibe.

[View Live](#)

A customizable new tab browser extension for Chrome and Firefox, featuring bookmarks, weather, to-do lists, and more, with a clean, minimal UI and personalized wallpapers, used by 100+ active users.

NextPostAI

[View Live](#)

AI-powered marketing assistant for apps and products, helping plan launches, generate content, create automated marketing plans, and post across multiple social media platforms like Facebook, Twitter etc.

About

Since writing my first line of JavaScript, I've been hooked on turning ideas into real web experiences. From building a Chrome Extension used by many to organize national tech events in Nepal, I've learned the power of creating solutions that are both performant and user-focused. Today, I craft web applications that genuinely make an impact.

Skills

React.js , Next.js

Express.js , Node.js , Nest.js

Typescript , Javascript

HTML, CSS, Tailwind CSS
